

Yeonju Kim

MECHANICAL ENGINEERING · ROBOTICS

411 E Park St Apt 201, Champaign, Illinois, USA

☎ (+1) 217-305-5741 | ✉ yeonjuk2@illinois.edu | 🌐 yeonju-kim.github.io

Education

University of Illinois at Urbana-Champaign

M.S. candidate in Mechanical Engineering

- Cumulative GPA 3.91/4

Illinois, US

Sep. 2019 - PRESENT

Seoul National University

B.S. in Mechanical Engineering and Aerospace Engineering

- Cumulative GPA 3.73/4.3

Seoul, South Korea

Mar. 2014 - Feb. 2019

Research Experience

Intelligent Motion Laboratory; University of Illinois at Urbana-Champaign

Research Assistant

Illinois, U.S.A

Sep. 2019 - Present

- Supervisor: Kris Hauser (*Prof. Dep. of Computer Science*)
- Developing a **Robot Design Suggestion framework** that helps users to explore design space by providing promising design candidates.
- Robot Designs are generated by optimizing for user-defined performance metrics, which are measured by physical simulation.

Biorobotics Laboratory; Seoul National University

Undergraduate Researcher

Seoul, South Korea

Mar. 2017 - June. 2018

- Supervisor: Kyu Jin Cho (*Prof. Dep. of Mechanical and Aerospace Eng.*)
- Fabricated soft robotic modules with 3-D printer.
- Analyzed soft modules movement using Pseudo Rigid Body Modeling method.
- Developed a bending angle prediction method as a design guide for users to attain desired motions.
- Thesis: "Development of Pseudo-Rigid Body Model for Modularized Soft Bending Actuators"

Disney Research Zurich and Autonomous Systems Laboratory; ETH Zurich

Undergraduate Researcher

Zurich, Switzerland

Sep. 2017 - Feb. 2018

- Supervisor: Paul Beardsley (*Principal Research Scientist, Disney Research Zurich*), Roland Siegwart (*prof. Dep. of Mechanical and Process Eng., ETH Zurich*)
- Fabricated two different designs minimizing the adverse effect on servomotor caused by undesirable rake's motions.
- Thesis: "Design, Fabrication, and Testing of a rake for the Beachbot Robot"

Work Experience

Bear Robotics, Inc.

Software Engineering Intern

Seoul, South Korea

Jan. - June 2019

- Developed front-end web for Robot Position Viewer using ROS Javascript libraries.
- Investigated Machine Learning models for Chatbot.

NCSoft Corporation

Game Development Intern

Seongnam, South Korea

July - August 2018

- Made Turn-Based 3-D Tank Game using Unreal Engine.
- Developed client networking module using Multithread programming.
- Created a Multiplayer Online Tank Game.

Envisible Corporation

Part time Intern

Seoul, South Korea

July - August 2018

- Created 3-D CAD models of Fitness Equipments for children.

Skills

Programming Python, C/C++, OpenCV, TensorFlow, PyTorch, MATLAB, Javascript, HTML, CSS, ROS

3-D Modeling SOLIDWORKS, Fusion360, 3D-MAX

Other Software Unreal Engine, Adobe Photoshop, Adobe Illustrator

Honors & Awards

Korean Government Scholarship for Overseas Study, National Institute for International Education, Korean Government 2019 - 2021

Awarded 40K US Dollars annually for 2 academic years

National Scholarship for Science and Engineering 2016 - 2017

Awarded 6,000 US Dollars annually for 2 academic years (full tuition)

Eminence Scholarship, Seoul National University Sep. 2015

Awarded 3,000 US Dollars (full tuition)

Gold Prize, The 7th Creative Design Challenge for 90 Percent Alienated May 2015

Team Project: "Color your dreams - Season 1: Palestine"

SNU Development Fund Scholarship, Sangjin Foundation March 2015

Awarded 2,000 US Dollars

Merit-based Scholarship, Seoul National University Sep. 2014

Awarded 1,500 US Dollars

Teaching Experience

Department of Physics and Astronomy, Seoul National University

Seoul, South Korea

Undergraduate Tutor

March - June 2015, 2016

- Taught Physics to eight freshman students in total.

Extracurricular Activity

SNU Tomorrow's Engineers Membership(STEM), Seoul National University March 2016 - August 2017

- The only honor society in College of Engineering, Seoul National University
- Designed promotion poster for recruiting.
- Participated in **Vision Mentoring** as a presenter.
 - Shared my vision and experiences with over 300 high school students to encourage them to study engineering.
- Served for the department of social service.

TRIX, Snowboard Club Dec. 2015 - Feb. 2017

- Trained for six weeks in Pyeongchang and taught trainees in the next year.
